## The Lancaster

The Lancaster was a four-engine heavy bomber that was used by the RAF during World War II. It was designed by Roy Chadwick and first flew in 1941. The Lancaster was a large and powerful aircraft, and it was capable of carrying a heavy payload of bombs. The Lancaster was used in a variety of roles during the war, including bombing raids on Germany and occupied Europe. It was also used to drop supplies to resistance fighters and to evacuate civilians from war zones.

## The Mosquito

The Mosquito was a twin-engine light bomber that was used by the RAF during World War II. It was designed by Geoffrey de Havilland and first flew in 1941. The Mosquito was a fast and versatile aircraft, and it was used in a variety of roles during the war, including bombing raids on Germany and occupied Europe, reconnaissance missions, and fighter-bomber attacks. The Mosquito was one of the most successful aircraft of the war, and it was used by the RAF throughout the conflict.
