Alexander Jackson Davis (1803-1892) was a prolific and influential American architect who left an indelible mark on the architectural landscape of the United States.

Born in New York City, Davis began his career as a draftsman in the office of Ithiel Town. He quickly rose through the ranks and became a partner in

the firm in 1829. In 1835, Davis established his own practice and began to design a wide range of buildings, from private homes to public institutions.

Davis was a master of many architectural styles, including Greek Revival, Gothic Revival, and Italianate. He was also a pioneer in the development of the American Victorian style. Davis's buildings are characterized by their elegant proportions, intricate detailing, and use of high-quality materials.

Some of Davis's most famous works include:

- The Smithsonian Institution Building in Washington, D.C.
- The United States Custom House in New York City
- The New York State Capitol in Albany
- The Lyndhurst Mansion in Tarrytown, New York
- The Blodgett Hall at Union College in Schenectady, New York

Davis's work helped to shape the American cityscape and establish the United States as a major architectural force. He was a founding member of the American Institute of Architects and served as its president from 1866 to 1869.

Davis's legacy continues to inspire architects and historians today. His buildings are a testament to his genius and his dedication to creating beautiful and lasting architecture.
